24 July 1985

[redacted]

Director, Intelligence Community Staff
Washington, D. C. 20505

Dear Al:

Please express my appreciation for a job well done to each Intelligence Community Staff participant in the recently completed Future SIGINT Capabilities Study (FSCS), and for their contribution to our understanding of future intelligence needs. The FSCS will provide a valuable guideline for an investment strategy that will help ensure that the United States SIGINT System will remain viable through the year 2000. It will also impact on the production of intelligence information for national decisionmakers and military commanders. Those Intelligence Community Staff personnel named in the enclosed listing may well be proud of their contribution to this Herculean effort.

While it is somewhat unfair to single out individuals for special recognition when so many made significant contributions to specific sections, I wish to cite [redacted] for their exceptional contribution to the entire Study.

As Chairman, SIGINT Committee, [redacted] was responsible for carrying out the DCI's directive in producing a Study that addressed the key issues facing the SIGINT Community through the turn of the century. He was the driving force that kept the disparate organizations striving toward a common goal. He organized the DCI Tiger Team and chaired the Executive Panel, which provided overall guidance to the Study.

[redacted] is the Phase II Director. As such, he chaired the Phase II Systems Review Group, managed the Technical Staff, and provided overall guidance and direction to the Phase II effort. The membership of the Phase II Systems Review Group, which closely monitored the Phase II effort, consisted of procurement managers from agencies directly engaged in research and development of systems for the SIGINT System. The Technical Staff was composed of a representative from each involved organization and provided expertise on technical topics. [redacted] also directed the effort to blend the architectures, looking for overlaps, risks, opportunities for mission transfer, and unresolved problems.

was the IC Staff representative to the Tiger Team. The Tiger Team represented and reported directly to the DCI, and was responsible for providing high-level guidance to the Study.

Please convey my personal commendation to these officers for their exceptional contributions.

Sincerely,

William J. Casey
